TENTATIVE REVISED WASTE DISCHARGE REQUIREMENTS  
FOR  
TRC COMPANIES INC.  
AND  
GBF HOLDINGS LLC.  
CONTRA COSTA SANITARY LANDFILL  
CLASS III CLOSED LANDFILL  
POST-CLOSURE MAINTENANCE AND CORRECTIVE ACTION  
CONTRA COSTA COUNTY

Waste discharge requirements (WDRs) Order No. R5-2003-0021 issued on 31 January 2003 is under consideration to be revised to update waste discharge requirements for Class III landfill post-closure maintenance and corrective action. The WDRs are being revised due to their age and to reflect the history of corrective action activities performed at the facility since the last revision. The revised WDRs include assurance of financial responsibility for post-closure maintenance of the landfill and any additional corrective action measures that may be needed in the futures. The tentative revised WDRs are being issued to TRC Companies Inc. and GBF Holdings LLC. (Discharger) for the closed Class III landfill located at the corner of Somersville Road and James Donley Boulevard in Antioch.

**You are receiving this notice due to you being an interested party pursuant to California Code of Regulations Title 27 §21730 which describes Public Participation procedures for revision of WDRs. Title 27 §21730 requires this notification to be delivered to various parties, including property owners and residents directly overlying any part of a plume of contamination from a Municipal Solid Waste landfill. Although these WDRs will include requirements related to corrective action and post-closure maintenance of the former landfills, the Department of Toxic Substance Control (DTSC) is the lead agency for corrective action related to releases, including the groundwater contamination plume, from the former landfills under a Consent Order. This WDR revision does not effect ongoing remediation efforts being overseen by DTSC. Questions regarding groundwater and soil vapor work related to releases from the former landfills should be directed to Ruth Cayabyab and DTSC at 916-255-3601 or [ruth.cayabyab@dtsc.ca.gov](mailto:ruth.cayabyab@dtsc.ca.gov).**

Further information about the facility and the proposed requirements can be found in the Information Sheet and the tentative WDRs that are available on the [Central Valley Water Board's](http://www.waterboards.ca.gov/centralvalley/board_decisions/tentative_orders) website at
